

React Hooks * Starts (use -)

- ↳ special function
- ↳ only function based components

React 16.8 → Hooks were introduced

↳ 16.8 and above
↳ Function Based

class
↳ state
↳ props
↳ state
↳ lifecycle
↳ component

- ↳ Display
 - ↳ useState()
 - ↳ useEffect()
- ↳ reducer
 - ↳ useSelector
 - ↳ useDispatch
 - ↳ useReducer
 - ↳ useCallback()
- ↳ custom hook
 - ↳ useNavigate()
 - ↳ useParams

State

- ↳ prev. values (remember)
- ↳ mutable.

useEffect() (replacement of lifecycle component methods)

↳ handle side effects of state

lifecycle of a component

Mount
dependency array = []

update
↳ dependency array = [state, data]

unmounted
↳ return from useEffect
Clean timing events,
remove event listeners
